

# Ramendra Kumer Singha

## Software Engineer

📍 Sylhet, Bangladesh | 📞 +8801795701483 | ✉️ [ringkuxinha@gmail.com](mailto:ringkuxinha@gmail.com) | [🌐 LinkedIn](#) | [🐙 GitHub](#)

### EXPERIENCES

---

- **[AppifyLab](#) : Software Engineer Intern** *Jun 2025 – Oct 2025*
  - Learned frontend and backend development along with database management for production.
- **[AppifyLab](#) : Junior Software Engineer** *Nov 2025 – Present*
  - Adding new features and fixing issues in EzyCourse and EzyStudio.

### PROJECTS

---

- **Bishnupriya Manipuri To English Language Dictionary** [GitHub](#) | [Vercel](#)
  - Developed using React for those interested in learning the Bishnupriya Manipuri language. Collected real-world data, stored it in JSON format, and used efficient searching techniques.
  - Technologies Used: React, HTML and CSS.
- **Blood Bridge** | [GitHub](#)
  - Creating a mobile application and admin dashboard to provide blood donation platform in Bangladesh.
  - Technologies Used: ExpressJS, NextJS, React Native and Docker.
- **Webinar App** | [GitHub](#)
  - Built full-stack webinar app using Cloudflare RTK Meeting. Users can join as hosts or manage participants who have registered for a webinar. Actual meetings can be arranged.
  - Technologies Used: React with TypeScript, HTML, CSS, MySQL and AdonisJS.
- **Commitment Timer** | [GitHub](#)
  - Developed a browser extension that forces you to commit a reason before visiting distracting sites.
  - Technologies Used: JavaScript, HTML and Shell.
- **CSE Department Management System** | [GitHub](#)
  - Implemented our campus's CSE department management system to manage departmental activities. Through this project, my development knowledge increased significantly.
  - Technologies Used: Django, HTML, CSS, Bootstrap, Python and SQLite.

### PROBLEM SOLVING

---

- **[CODEFORCES](#)** (Max rating: 1458, Specialist)
  - Solved 1200+ algorithmic problems
- **[CODECHEF](#)** (Max rating: 1686, 3 Star Coder)
  - Solved 200+ algorithmic problems
- **Other:** [ATCODER](#), [LeetCode](#), [LightOJ](#), [CSES](#)
  - Solved 500+ problems on data structures

### ACHIEVEMENTS

---

- Solved over 1800 algorithmic problems on various online judge
- Completed an Advanced DSA and Competitive Programming Workshop
- Participated in SUST IUPC 2024

### SKILLS

---

- **Programming Languages**  
C++, C#, Python, Java, JavaScript, TypeScript
- **Development: Front-end & Back-end**  
HTML, CSS, React, NextJS, AdonisJS
- **Database Management**  
SQL, MySQL, MongoDB
- **Tools**  
Git, GitHub, Postman, Visual Studio Code, Docker

### EDUCATION

---

**Sylhet Engineering College – Sylhet, Bangladesh** *Jan 2020 – Jul 2025*  
Bachelor of Science in Computer Science & Engineering: CGPA: 3.84 out of 4.00

### VOLUNTEERING WORKS

---

- **SEC Programming Club: Active member of the club** *Jan 2022 – Apr 2025*
  - Competitive Programming Trainer
  - Contest Organizer
